# NITTA

BELTING FOR

# Sheeter Applications

## THE NITTA ADVANTAGE

**Nitta Sheeter Tapes** are designed for the transport of various types of paper by offering a wide variety of surfaces and frictions. Available products include nonmarking belts for high-end glass paper, which are long-lasting and easy to finger-splice with no foil required. All products are anti-static, abrasion resistant, and very flexible.

Nitta belts are time-tested and have been proven to outperform the competition. Our engineered specifications result in greater performance, longer life and better value.

## PolyBelt™ OFFERINGS

- SG-500
- SGLA-350S
- TAIR-350
- KCS-350S
- Manufactured in the USA
- Joining tools available

## PolySprint™ OFFERINGS

- TA-S6G4
- FZ-5E12
- NTA-4E14
- TC
- Joining tools available

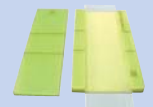

## CONVEYOR OFFERINGS

- BC-12A, plus many other types

## MANUFACTURERS

- Marquip
